THE STORY OF ANARCHIST & FOUNDRY WINES

Classical winemakers gone wild

Anarchist Wine Co. began as a creative project at The Wine Foundry, a family-owned Napa winery specializing in custom luxury small lot wines. One day, the winemaking team commandeered a few barrels of wine and went rogue. They broke established rules, departed from convention, and became a bit wild with their winemaking. The wines were sensational, so we carried the magic forward with Anarchist Wine Co., offering a fresh take on exceptional wines. Our foundation brand, Foundry Wines, highlights the classical talents of our winemakers, showcasing exquisite expressions of our region's premiere vineyards and varietals with consistently high-scoring wines.
